

REACH-Declaration

Dear Sir or Madam,

After a detailed examination with reference to the REACH Directive in our house, we made out that this directive is not applicable at our company.

The chemical substances listed in the REACH-list are introduced by us only in quantities far below the minimum limits. That is the reason why we are not within the scope of the REACH regulation.

With this statement, we hope to answer your question at your complete satisfaction.

If you require any further information, we would be pleased to be at your disposal.

Yours sincerely,

RK Rose+Krieger GmbH
