Declaration of conformity "REACH"

According to REACH chemical substances become obligatory for registration.

As Manufacturer and supplier of enclosure systems and components we do not have to register our products.

The substances used within our products become registered by the suppliers of those semi-finished products. As a "Downstream User" ROSE Systemtechnik is not obligated to control the correct registration of chemical substances by the sub-suppliers.

By this a confirmation by ROSE Systemtechnik of the REACH-conformity regarding the products of our sub-suppliers is not necessary.

This declaration is exclusively valid for the standard products of ROSE Systemtechnik according to the actual catalogue.

Hoping to assist you with this information, we remain

with kind regards
